Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (currently amended) A device comprising a hollow member having an open end for the insertion of a finger, the hollow member having a first section attached to a second section, said first section having a nonwoven material, ~~said second section comprising an elastic nonwoven material,~~ said first section being connected to said second section in a manner that forms a seam, and a lip care formulation disposed on ~~at least~~ a first portion of an exterior surface of the device to form a lip care treatment zone and a second portion of the exterior surface comprising a texturized surface to form an oral care treatment zone configured to clean the teeth and gums of a user, wherein the lip care treatment zone is separate from the oral care treatment zone.
2. (cancelled)
3. (currently amended) The device of claim 12, wherein the first portion of the exterior surface that includes the lip care formulation comprises a ~~is separate from the texturized surface or is a portion of the texturized surface.~~
4. (currently amended) The device of claim 12, wherein the oral care treatment zone includes an oral care chemical additive ~~portion of the exterior surface that includes the lip care formulation is a portion of the texturized surface.~~
5. (currently amended) The device of claim 13, wherein the first portion of the exterior surface that includes the lip care formulation is closer to the open end than the ~~texturized surface~~ second portion that forms the oral care treatment zone.
6. (withdrawn) The device of claim 2, further comprising a breath freshening agent, a flavoring agent or a dental agent.

7. (withdrawn) The device of claim 6, wherein the breath freshening agent, the flavoring agent or the dental agent is disposed on a portion of the surface of the device that is separate from the portion of the surface of the device that includes the lip care formulation.

8. (original) The device of claim 1, wherein the lip care formulation comprises at least one compound selected from the group consisting of allantoin, avobenzene, camphor, dimethicone, homosalate, menthol, meradimate, octinoxate, octisalate, oxybenzone, padimate O, petrolatum, phenol.

9. (original) The device of claim 1, wherein the lip care formulation comprises dimethicone, oxybenzone and padimate O.

10. (withdrawn) The device of claim 1, wherein the lip care formulation comprises allantoin and camphor, menthol or phenol.

11. (original) The device of claim 1, wherein the lip care formulation comprises dimethicone or petrolatum and at least one sun screening agent.

12. (original) The device of claim 1, wherein the lip care formulation comprises a sun screening agent and a skin protecting agent.

13. to 22. (cancelled)

23. (new) A device comprising a hollow member having an open end for the insertion of a finger, the hollow member having a first section attached to a second section, said first section having a nonwoven material, said first section being connected to said second section in a manner that forms a seam, a lip care formulation disposed on a first portion of an exterior surface of the device to form a lip care treatment zone and a second portion of the exterior surface comprising a texturized surface form an oral care treatment zone configured to clean the teeth and gums of a

user, wherein the lip care treatment zone is separate from the oral care treatment zone and the oral care treatment zone includes an oral care chemical additive.

24. (new) The device of claim 23, wherein the first portion of the exterior surface that includes the lip care formulation comprises a texturized surface.

25. (new) The device of claim 23, wherein the first portion of the exterior surface that includes the lip care formulation is closer to the open end than the second portion that forms the oral care treatment zone.

26. (new) The device of claim 23, wherein the oral care chemical additive comprises a breath freshening agent, a flavoring agent or a dental agent.

27. (new) The device of claim 23, wherein the lip care formulation comprises at least one compound selected from the group consisting of allantoin, avobenzene, camphor, dimethicone, homosalate, menthol, meradimate, octinoxate, octisalate, oxybenzone, padimate O, petrolatum, phenol.

28. (new) The device of claim 23, wherein the lip care formulation comprises dimethicone, oxybenzone and padimate O.

29. (new) The device of claim 23, wherein the lip care formulation comprises dimethicone or petrolatum and at least one sun screening agent.

30. (new) The device of claim 23, wherein the lip care formulation comprises a sun screening agent and a skin protecting agent.
